

Regional Geology and Au Occurrences

Geology Legend

- | | |
|------------------------------------|-----------------------------------|
| Gabbro | Picritic volcanic rock |
| Sericite quartzite | Quartz feldspar paragneiss |
| Serpentinite | Ultramafic hypabyssal rock |
| Quartzite | Ultramafic rock |
| Silicate-conglomerate | Calcsilicate-rock |
| Arkose quartzite | Semipelite |
| Graphite parashist | Syenite |
| Biotite paragneiss | Silicate-siltstone |
| Peridotite | Basaltic komatiite |
| Tonalite | Peridotitic komatiite |
| Granodiorite | Granitic migmatite |
| Mafic tuff | Pelite |
| Banded ironstones | Andesite |
| Ultramafic volcanic rock | Mafic graphide tuff |
| Felsic volcanoclastic conglomerate | Dacite |
| Tholeiitic basalt | Mafic volcanoclastic conglomerate |
| Biotite parashist | Quartz-arenite |
| Amphibolite | Granite |
| Arkose gneiss | Tonalitic migmatite |
| Monzogranite | Quartz monzonite |
| Metasomatic rock | Structure |

1:200K Geology and Structure (GTK, 2017)

INSET MAP

Launi West

Launi East

Kutuvuoma
DDH 16003
11.37 g/t Au / 13.3 m
