

INVESTMENT HIGHLIGHTS:

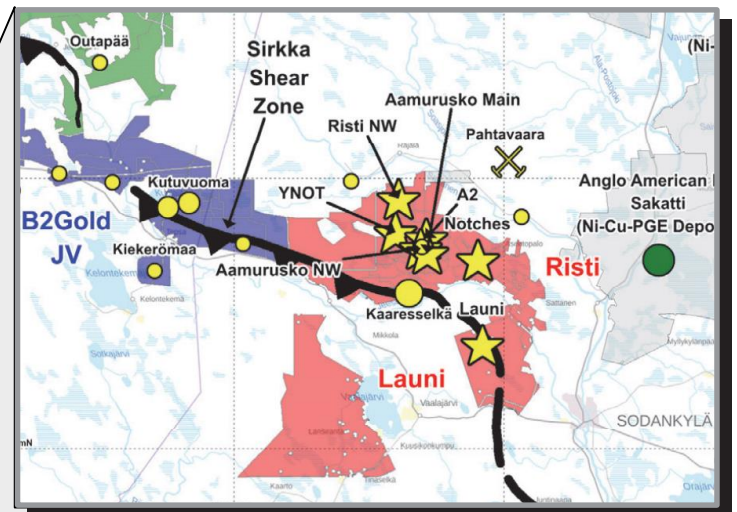

- **Favourable Geology / Jurisdiction** – Geology Analogous to Other Major Mining Jurisdictions (Timmins, Kirkland Lake, Red Lake)
- **Potential For High-Grade Systems** – Early Results Indicate Potential for Very Large, High Grade Mineralized Systems
- **Large Under-explored Land Package** – ~100,000 ha of land in prolific Central Lapland Greenstone Belt (CLGB)
- **Well-Funded** – Fully funded through 2020
- **Major Gold Companies Interested** – Kinross ~ 9.95% and JV , Newmont ~ 3.8%, B2Gold JV
- **New Cornerstone Investor** – Eric Sprott Invested C\$5 million at C\$1.50 per share
- **Aligned Management and Board** – Own over 17% of the company and dedicated to creating shareholder value

Drilling at Aamurusko (NW and Main) has been very successful, intersecting multiple high-grade intervals.

RISTI PROJECT

The Risti Project covers approximately 16 197 ha in the Central Lapland Greenstone Belt (“CLGB”) in northern Finland. Aurion acquired the first exploration licence in 2015. The Risti Project is located NNW of Sodankylä, Finland, which is a 40-minute drive along paved and all-weather gravel roads through rolling hills and forests.

Drilling Highlights from Risti (Aamurusko)

- Hole AM18042: 789.1 g/t Au over 2.9 m (Main)
- Hole AM18082: 42.3 g/t Au over 4.0 m (Main)
- Hole AM19095: 9.42 g/t Au over 28.22 m (NW)
- Hole AM19106: 23.41 g/t Au over 11.10 m (NW)

LAUNI PROJECT

NEW DISCOVERIES AT LAUNI – PROSPECTING SUCCESS

Aurion's wholly-owned Launi Project consists of two blocks, Launi East and Launi West with a combined area of 14 330 hectares (ha). Both Exploration Licences were recently granted. Launi East has no record of prior exploration or mining licences. Paved highway and all-weather gravel roads provide easy access to the property which is located only 8-10 kilometres (km) south of the Risti Project and 10 km northwest of the Municipality of Sodankylä.

Launi East Highlights:

- 1,621 rock sample assays received to date assayed as high as 709 g/t Au and averaged 5.60 g/t Au
- Multiple new mineralized zones over 1.5 by 5.5 km area, with multiple new visible gold occurrences
- Quartz veining associated with strong alteration from 10 to > 100 m wide within 2km of the Sirkka Shear, a crustal scale fault analogous to the Porcupine-Destor Fault in Timmins

Christmas Deformation Zone (CDZ):

- 214 rock chip samples ranging from nil to 313 g/t Au averaging 21.75 g/t Au
- 450 m of strike length of CDZ uncovered by trenching
- Channel sampling results include 27.01 g/t Au over 1.77 m and 14.76 g/t over 2.95 m
- Additional 1.2 km of strike identified by outcropping veins and quartz boulders at surface
- Drilling commenced

CORPORATE HIGHLIGHTS:

OWNERSHIP AND CAPITAL STRUCTURE

FULLY FUNDED:

Working Capital ~\$20M (Sept 30, 2019)

- 83.2 M Shares / 7.7 M Options / 728K Broker Warrants
- Market Cap: ~\$166.8M (As of January 6th, 2020)

KEY INVESTORS

ERIC
SPROTT

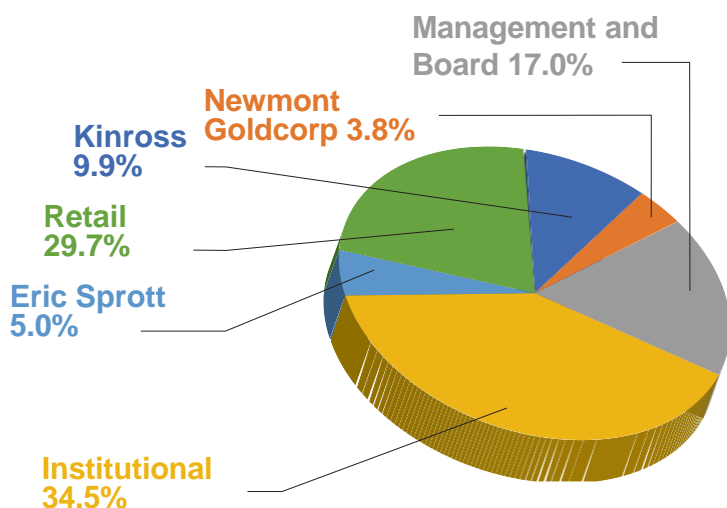

Global Asset
Management

MACKENZIE
Investments

SHAREHOLDER BREAKDOWN

ALIGNED MANAGEMENT AND BOARD

Chairman – David Lotan, CPA, CA

- President of LHI, an investment company focused on natural resource opportunities
- Founder and CEO of the Polar Structured Products – sold to major Canadian Financial Institution
- Portfolio manager for the Ontario Teachers' Pension Plan

CEO and Director – Mike Basha, P. Geo, P.Eng (Geological Engineer)

- 28 years experience in the minerals industry working for majors (Noranda) and several juniors
- Co – discovered Hammerdown Gold Mine
- Successfully generated and joint ventured several projects with majors in Canada and Latin America

CFO – Mark Serdan, CPA, CA, CFA

- 20-year career spanning both investment management and banking
- Recipient of multiple Lipper awards for investment performance in precious metals, energy and natural resources

VP Corporate Development – Mark Santarossa, CPA, CA, MBA

- 15-year career in mining spanning equity research, institutional sales and mergers and acquisitions investment banking
- Previously CFO and VP Corporate Development of GT Gold Corp.

Miles Thompson, Advisor

- Professional geologist with 25+ years experience
- Founder and Chairman of Reservoir Minerals who discovered the Timok Copper Project – Acquired by Nevsun Resources
